**Hekima Safaris
Tour Itinerary**

3 Day safari Tarangire, Lake Natron and Ngorongoro Conservation Area

Day 1 Arrival

The group arrives at Kilimanjaro Airport (JRO). Participants are met by a representative of Hekima Safaris and transferred to a hotel in Arusha.

Day 2 Tarangire

In the morning after breakfast (around 7:30 AM) your safari guide will arrive at the hotel and inform the receptionist that he is waiting for you. After meeting up with your driver you will travel to Tarangire National Park, and by 10:00 AM you will already be on your first safari!

In this park you have the chance to see lots of wild Tanzanian animals (lions, buffaloes, giraffes, zebras, etc.), but above all else it is famous for its astonishing number of elephants, who typically tend to stay close to their drinking source, the Tarangire River. You should be aware that this is wild nature, so the guide cannot make any guarantees on the presence of specific wild animals, but you can be sure he will do his best to find everything you're looking for!

At lunch time you will be provided a meal, after which the safari will continue. In the evening you will be transferred to the hotel.

Additional notes:

This is your first day on safari, so we ask that you please pay special attention to the national park's visitor rules and our company recommendations.

- During the safari it is strictly prohibited to exit the vehicle, except for in specially designated areas. Violations of this rule may be accompanied by large fines for the company, including the revocation of its license.
- Off road driving is also prohibited, as such behaviour may cause irreparable damage to the fragile balance of the natural ecosystem.
- During the safari you are allowed to smoke, but be extremely careful about how you extinguish and dispose of cigarette butts, as they are a frequent cause of fires in the savanna.

- In addition, we sincerely request that you not put your feet on the safari car's seats, nor sit on the back of them, because this type of behaviour quickly makes the cars unusable.

Thank you in advance for your understanding.

Day 3 Lake Natron

In the morning you will head over to Ngare-Sero Waterfall in the gorge of a rift valley. This trekking is very light and relaxing, but at some point, you will be crossing a river, so it is better to wear flip-flops or sandals. Then you will be transferred to Lake Natron, where you can take photos of the magnificent Ol Doinyo Lengai Volcano, walk along the shore, and stick around for lunch. Later, you will finish the safari and get to your accommodating place that is located right on the edge of Ngorongoro crater.

Note: We can organize a trekking to Ol Doinyo Lengai for an extra fee. But be aware that this trekking is rather difficult and requires good physical training.

Day 4 Ngorongoro Crater

On this day it is best to leave the hotel as early as possible so you can see the variety of animals that are only active during the morning hours; breakfast will be packed in lunchboxes specifically for this purpose. At 6:30 AM you will set off for Ngorongoro Conservation Area, and after about an hour you will already be inside the crater. Ngorongoro is one of the most famous and interesting of Tanzania's national parks because here you can find the greatest number of different animal species per square kilometre. You will have the chance to see buffalo, elephants, lions, wildebeests, zebras, hippopotamus and feline species such as caracals and servals. The luckiest travellers might even see a rhinoceros, an animal whose numbers are rapidly declining. By lunch time you will arrive at the lake side, where you will be offered lunchboxes, after which the safari will continue, ending in a few hours with a transfer to the back to the hotel in Arusha.

Day 5 Departure

Rest in the hotel and transfer to the airport.

Note: Hotel check-out is at 11:00 AM. In case you need a late check-out because of an evening flight, you have the option to extend your hotel stay till 6:00 PM for an extra fee.
